INTRODUCTION

The HS-M Battle Pad is a hybrid gaming surface particularly suited for bumpy or uneven tables and desktops. The hard upper surface layer is optimized to perform 40% better with laser sensors and offers improved glide for absolute speed and precision tracking. The HS-M Battle Pad is layered with polypropylene and a special alloy coating finish, while the aggressive non-slip 100% natural rubber base makes thorough contact with most desktop materials, ensuring that your gaming surface stays firmly in place during intense battles.

SPECIFICATIONS

Surface type: SSK Surface™

Size: 350 x 260 x 4 mm

Base: 100% Natural Rubber

FEATURES

- Made of a special responsive PP/alloy-layered compound, uniquely textured to offer maximum tracking and speedy glide
- Better optimized tracking for all laser sensors
- Easy to clean
- Easy on your mouse feet
- Aggressive non-slip bottom grip – stick it on the table and forget about it
- Best for LAN-parties - avoid poor desk surface issues
